PLATOSAURS, THIS IS A DINOSAUR

This impressive 6-metre-long specimen will plunge you into its fascinating history and that of its fellow creatures. To mark the occasion, a temporary exhibition will highlight this little-known species, bringing together fossils from Frick, Tübingen in Germany and Lons-le-Saunier in France. What's more, artists are bringing their unique vision to life to bring this giant of the past to life. Don't miss this opportunity to discover this prehistoric treasure at the Muséum!
