

BED & BREAKFAST, CRÉMINES

CHALET SIKY

In the Sikypark there is a special highlight. In the Chalet Siky - between the wolf, tiger and raccoon park - we offer exclusive overnight stays. One double room and four single rooms are available. Sleep like a marmot: An animal-like comfortable accommodation expects you. In the middle of the zoo you spend the night in our Chalet Siky. Fortunately the neighbours don't make any noise - our tigers have been sleeping for a long time and the wolves are also used to human visitors. With the half-board package, you can grill for the whole family on the terrace of the Siky Chalet in the evening and let the day pass in review after an exciting visit to the zoo. In the morning, the restaurant team brings the full breakfast basket. What does a zoo sound like at night? Do the wolves howl and the frogs quack in the pond? What do the animals do when the last visitor has left the zoo? Our animal keepers have the right answers to these and many other questions. For an overnight stay at Chalet Siky you can book an evening guided tour with which you can discover the world of animals from a different angle.
