

FAMILY, LA VALLÉE DE LA SAGNE

# SLOW-VAL

There will be numerous stands run by local clubs offering recreational activities and food for the hungry.

The course is 27 km of tarmac road with very little difference in altitude (+/- 70m). It offers several escape routes that can be shortened according to the abilities and desires of each person. It is therefore very suitable for a nice Sunday outing with the family, whether in a pushchair, on a scooter or on a bike!
