

VACATION APARTMENTS, LES ENFERS

MAISON DE VACANCES - AU CIEL DU JURA

This particular holiday home is the ideal place for a holiday close to nature, surrounded by the vast landscapes of the Franches-Montagnes. Here, you'll feel right up close to the Jura sky! The chalet was completely refurbished in 2022 to a modern standard. It is ideal for up to 4 people. Up to 6 people can be accommodated on request.

The house is characterised by its open-plan design, with an open kitchen/dining room and a sleeping loft. The living area (raised ground floor) features a combined kitchen/living room and fireplace. The sofa bed can be used - if required - for two people. The bathroom with shower and WC is also on the ground floor. In summer, the large balcony is a pleasant place to spend time as well.

The bedroom with two beds is located on the first floor (with an open mezzanine). The second floor with two beds, accessible by a comfortable ladder, is generally used by the younger guests.

In the single-storey 'basement' (formerly the garage), there is plenty of storage space for luggage, baby buggies, skis and so on.

The car can be parked outside, with the option of using the 220/380-volt socket for an electric car.

The large garden has tables, chairs, a hammock, a deckchair, games and a barbecue. The house is located in the countryside, which is why no paved garden area has been built. The lawn can be used for all kinds of activities.
