

CONGRESSES, CONFERENCES, COURSES, SEMINARS, FAIRS, TRAMELAN

# FUTURE DAYS 24

To promote technical and scientific professions among our youth, we offer a day of discovery to the entire population of the Grand Chasseral region - especially to our youth - with an exhibition, celebrities, meetings, an air show, and a conference with a concert. It will be possible to discover the professions of the future and much more, thanks to our exhibitors at the CIP (Interregional Training Center). We will welcome the Swiss astronaut Claude Nicollier, pilot Hervé de Saint Exupéry, a member of Antoine's family, and the famous SWISS Band. Our new Swiss astronaut Marco Sieber will visit us if his training permits. As the ultimate honor for our region, the Patrouille Suisse will perform several formations over Tramelan, and a flying demonstration of the Super Puma will also add dynamism to this day.

#### PROGRAM

1:30 PM Musical opening with Tramusica on the hill of the CIP  
1:40 PM Welcome speech by local and cantonal authorities  
2:00 PM Formation flights of the Swiss Patrol  
2:15 PM Flight demonstration by the Super Puma display team  
2:30 PM Super Puma on the ground for viewing  
2:30 PM Official opening of the exhibition at the CIP  
3:00 PM Meeting of the youth with our guests at the CIP  
3:45 PM Departure of the Super Puma  
4:00 PM Autograph session in the CIP exhibition  
5:00 PM Opening of the gates of the Marelle Hall  
5:30 PM Conference with our celebrities & Concert of the SWISS band  
7:30 PM Autograph session in the CIP exhibition  
8:00 PM Western party at the Hasler Farm - Entertainment and bars all night long

#### GUESTS

##### CLAUDE NICOLLIER

Claude Nicollier is an astronomer, astronaut, and former fighter and commercial pilot. He is also the godfather of the Patrouille Suisse, which will celebrate the sixtieth anniversary of its creation that day.

##### HERVÉ DE SAINT EXUPÉRY

A member of the family of the famous aviator and writer Antoine de Saint Exupéry, Hervé is a former fighter pilot on Jaguar and Mirage. He currently flies Airbus A330 and A350 for Air France. His vocation is to inspire youth through the stories of his illustrious ancestor.

##### ANTONIO DELFINO

Passionate about science and technology, Antonio holds a PhD in physics and has over thirty years of experience in research and development. He currently works in the space field, where he is involved in the development of a lunar rover for NASA within his company, Venturi Astrolab, based in Switzerland.

##### LUKAS VIGLIETTI - MODERATION

A native of Tramelan and former student of CEFF, he completed his entire electronics engineering training in the region. Lukas is currently a long-haul pilot at SWISS and heads the company SwissApollo, which aims to inspire our youth.

#### EXHIBITION AT THE CIP

We offer an exhibition at the CIP on the theme of inspiration for technical and scientific professions. You can meet and discuss with professionals in mechanics, electronics, watchmaking, aviation, and even astronautics. You can also buy signed books and other souvenirs. Refreshments will be available all day at the CIP.
