VOLXROX UNPLUGGED

Full of atmosphere and versatile like no other band in Switzerland - that's VolXRox! Wherever these five men turn up, you can expect sore muscles and hoarse voices the day after. With a combination of the most diverse styles from rock to rap, boogie woogie to punk or country to Latin pop, VolXRox manages to carry the audience away in an incomparable way. In wonderful Bernese German, but also sometimes in French, mostly energetic, but also sometimes very calm and with a lot of depth. In short: anyone who likes dialect will love VolXRox! And now Simu, Alain, Louis, Päsco and Küre are presenting a new side: "VolXRox Unplugged". On 9 November, experience a concert like you've never heard from this band before. Without amplifiers, undistorted and authentic - just unplugged.
