PHOTOGRAPHIC WALK: "HISTORY AND ANECDOTES"

Following the success of its first photographic walk during the winter of 2023-2024, ADVAT presents its second edition.

While the first walk focused on the history and prestigious past of the La Vue des Alpes and Tête de Ran passes (1880-1950), the second will take you on a tour of activities more closely linked to the strong development of tourism and sport in these two emblematic and now easily accessible locations (1950-2000).

Starting from the La Vue des Alpes pass, this photographic walk to Tête de Ran follows the groomed winter hiking trail (SuisseMobile no. 805) that runs alongside the cross-country ski runs. The route is 1.5 km long (3 km round trip) between fir trees and hills.

OPENING HOURS

From 1 Dec 2024 to 27 Apr 2025

PRICES

Single price	Free
Entrance	

GOOD TO KNOW

- Depending on snow conditions, this walk can be combined with a winter activity such as sledging, downhill skiing, cross-country skiing or snowshoeing
