

WATCHES, TRAMELAN

LIVING WATCHMAKING

As a source of passion, watches have a number of secrets to reveal. They are part of Switzerland's and the Jura arc's identity. The Centre interrégional de perfectionnement (CIP) in Tramelan and the Chasseral Nature Park invites you to discover watchmaking in the cradle of the most prestigious watch manufacturers.

Explore the world of watchmaking with an expert watchmaker

Pass through the doors of a training centre located in a typical Jura landscape.

Put on a watchmaker's work shirt, step forward to his workbench and immerse yourself in the everyday life of this precision craftsmanship. An instructor will teach you the art of mastering time and how to bring a watch to life. This educational offer is available in German or French for individuals and groups. It is also possible to create and leave with one's own watch (on request).
