

GOLF, ST-URSANNE

GOLF, LA CAQUERELLE

"We're off to a little competition among friends and meet at the golf course of La Caquerelle, where the new 9-hole green awaits us. With the necessary equipment and teacher in tow (indispensable!) we head for the first hole. Now it's time to show some talent, because it really isn't easy to hit the ball with the club just right. You have to know which club to use, and kick the ball off correctly without hitting holes in the ground next to it. Eventually the realization dawns that the ball never ends up where we want it to... But the time spent out in nature and the fun we had regardless of some disappointment made it well worth our while. It looks so easy on TV, but those are professionals!"
