WEAVING COURSES

In her workshop in Saint-Ursanne, Liselotte offers different courses to learn how to hand-weave and make one's own fabric. They are open to the public and adapted to the participants' skills and needs. Three workshops are available to choose from:

- Introductory course: for those who have been dreaming about learning how to weave.
- Intensive course: with the help of the owner, a fabric is created from A to Z. The course is suitable for beginners as well.
- Open workshop: reservation of a handloom in the facility. According to availability.
