

SPORT, LA CHAUX-DE-FONDS

44TH RESISPRINT INTERNATIONAL

In 1980, L'Olympic decides to mark the installation of the new synthetic track (Resisport) at the sports complex in La Chaux-de-Fonds with an international meeting. Several of the invited world-class athletes manage to beat their personal records. Media reports about these feats have inspired other top athletes to strive for new personal bests on this extraordinary track. Today the event is known all over the world. Renowned athletes from five continents compete at the Resisprint International in La Chaux-de-Fonds every year.
