

WELLNESS, MONTAVON

A SPACE BETWEEN HEAVEN AND EARTH

Experience the soothing steam of the hammam, the relaxing warmth of the Finnish sauna, the ice fountain and the swimming pool heated to 29°C. Through the windows you look out into a beautiful garden.

We produce most of the care products we use ourselves. They come from conscious wild collection and organic or biodynamic cultivation.

The treatments last at least 75 minutes. You can increase their effect either by a preceding or a complementary visit to the SPA (sana per aquam) & Wellness facility.
