

NATURAL SITES, LA SAUGE

NATURE CENTRE BIRDLIFE OF LA SAUGE

Many rare and endangered species of birds reproduce themselves there or stop by on migrating periods or during the winter. The centre makes a large public aware of the natural resources of the area.

Its main objectives are to convince the people of the importance of the natural environments, to create new habitats favourable to the wildlife, and specially to the green tree frog and the kingfisher.

OPENING HOURS

From 3 Mar 2025 to 20 Oct 2025
Wednesday - Sunday
