KLUGLE TEAM VENTURE

Klugle Team Venture revisits the concept of escape games by offering an open-air version.

In teams of 2 to 6 players, the participants put their logic and deduction to the test in new courses full of enigmas. Equipped with a backpack filled with adventurer's equipment, they embark on a race against the clock to save the world (between 90min and 150min depending on the course).

Thanks to the Visionpad (tablet), a goblin guides the heroes to successive riddles to win crystals. They must collect enough crystals to close the magic portal and thus save humanity from chaos.

A fine analysis of their environment as well as the choice of the right tools is essential to their success, but the most determining factor will be their team spirit.

Only the most insightful will be able to overcome all the enigmas!
