AUTUMN MARKET IN CHAMPOZ 2024

The first editions have all been a great success and the popularity of the Champoz Autumn Market continues to grow among the regional population, and even beyond. During the last editions, more than 5'000 visitors have walked through the streets of the village, enjoyed the products offered by the more than 100 exhibitors, and tasted the culinary specialities of the canteens.

During the day, several events are organised for young and old. Three concerts will be held on the main stage. Children can have fun on bouncy castles and enjoy donkey rides.
